

0311

MEMORANDUM FOR: Executive Secretary  
United States Intelligence Board

SUBJECT: Request for Information Regarding USIB Research  
Studies

REFERENCE: USIB-D-27.1/22, 20 Nov 62; same subject

1. The Domestic Exploitation Committee is currently non-operative as such, since the recommendation that it be discontinued appears to lack only formal approval. However, active liaison between the individual members continues on an ad hoc basis.

2. No formal research studies concerned with the collection, production, support or coordination of foreign intelligence derived from domestic exploitation are in process under the auspices or direction of the USIB. Needless to say, all of these matters are under continuing study and review, particularly the subject of requirements, both within CIA and with all of the other USIB member agencies.

Chairman, Domestic Exploitation Committee
